Summarize Gameplay

03

Summarize:

Depending on the players budget, there are different types of gameplay. We recommend buying Hailing NFT Lv 2 or above to get better profit, and its cheaper compare to upgrading level yourself in the long term.

The Earnings from the game is by clearing floating stages and earn shard , to sell in the market. Or if the players have lv 6 or lv 7 hailing , they will be able to mine for DUW Token in game on the sea turtle.
